

# COPPER COAST

natural skincare

---

home fragrance

*Hello!* I am Victoria Flanagan. The inspiration for my business came from my son. As a baby he had very sensitive skin and I found using standard bathing products irritated his skin further. I started to research product ingredients, effects etc. and set about making my own. All of our products are certified and registered under EU guidelines.

Our hand crafted Natural Skincare range includes Lip Balm, Body Wash & Lotion, Shaving Soap, Facial Oil & Lotion. All of our Skincare range is specifically formulated using anti aging, protective, hydrating, skin enhancing natural ingredients. We also offer a luxurious range of Gift Sets.

We also produce hand poured Soy Wax Candles and Room Reed Diffusers. All our fragrances are natural using Essential Oils with no synthetic fragrances being used.

Living on the Copper Coast we are very aware of how fragile our coastal environment is, with this in mind all of our packaging is reusable and recyclable.

*Victoria*
